

KilnWatch · Inspection request

SAMPLE DATA · DEMONSTRATION ONLY · NOT A REAL COMPLAINT

Request for inspection

To the relevant inspecting authority (recipient to be confirmed)

Please inspect the records listed below and establish the site conditions and applicable rules. Satellite flags require inspection; they are not findings. Model predictions remain provisional.

SAMPLE-KW-001

Flagged by satellite · pending inspection

Latest observation: 1 October 2026 (sample date)

Local sample record: <http://127.0.0.1:5173/kilns/SAMPLE-KW-001>

SAMPLE-KW-001: the model predicts FCBK; confirm on site. 1 sample distance assessment is available. A sample population estimate is available; it is not a measurement of health impact.

Sample assessed distance · C-ORCH-800: 520 m / threshold 800 m. Please confirm applicability and measurement on site.

https://mpcb.gov.in/sites/default/files/standing_orders/Environmental%20Standards%20for%20Brick%20Kilns%20vide%20notification.pdf

Kiln type, fuel, and current operation need an on-site check.

Some rules have not been assessed. The applicable threshold and measured feature must be established.

Evidence references (links only; no images attached):

SAMPLE-KW-002

Flagged by satellite · pending inspection

Latest observation: 1 October 2026 (sample date)

Local sample record: <http://127.0.0.1:5173/kilns/SAMPLE-KW-002>

SAMPLE-KW-002: the model predicts Zigzag; confirm on site. Assessed distance rules are not available. Exposure estimate not available.

Kiln type, fuel, and current operation need an on-site check.

Some rules have not been assessed. The applicable threshold and measured feature must be

established.

Exposure estimate not available.

A complete evidence pair is not available.

Evidence references (links only; no images attached):

Image reference unavailable.

After: <http://127.0.0.1:5173/samples/after.svg> · 1 October 2026 · KilnWatch synthetic scene · not satellite imagery

Resident observations (not satellite findings):

Fictional resident observation for export testing.

Name: Sample Resident
